DATES TO AUGUST 3.

Louisiana Delegates to Philadelphia.

Major-General Francis Herron, the Iowa soldier of Democratic antecedents, who had settled on the Red river since the war, was lately appointed a delegate from Louisiana to the Philadelphia Convention. Judge Abell and General Dick Taylor belong to the same delegation.

Gen. Herron Declines to be a Delegate.

General Herron publishes the following letter:

NEW ORLEANS, July 31.—To the Chairman Democratic Central Committee—Dear Sir:—After the scenes of yesterday, which I witnessed, I most respectfully decline acting as a member of the delegation appointed by your Committee to attend the Philadelphia Convention. I believe the fate of the State to be settled by yesterday's action, and any attempt to improve matters just now would, in my opinion, be useless.

Respectfully yours,
F. J. HERRON.

The Dictator Speaks.

CHICAGO, August 3.—The following dispatch was published in New York on Wednesday morning, and was not telegraphed west:

WASHINGTON, July 30, 1866.—To Andrew S. Herron, Attorney General of Louisiana: You will call on General Sheridan, or whoever may be in command, for sufficient force to sustain the civil authorities in the suppression of any illegal or unlawful assembly, who keep, or assume to exercise, any power or authority without first having obtained the consent of the people of the State. If there is to be a Convention let it be composed of delegates chosen from the people of the whole State. The people must be first consulted. Any changing of the ordinances and laws of the State of Louisiana is usurpation, and will not be tolerated. The law and the Constitution must be sustained, and thereby peace and order.

ANDREW JOHNSON.

The New Tariff.

CHICAGO, August 3.—The New York *Herald* of Wednesday morning, the 1st inst., says there appears to be a great want of information among the business community, in relation to the new Tariff bill, which, it appears, was passed in the last hour of the session and signed by the President. A letter from the Secretary of the Treasury says, the tariff does not apply to goods now in bond. The new rates will reach to goods imported on and after the 10th of August, at which date also, the ninth section, which requires the addition of the actual charges and expenses of transportation to be added to the value of the imported goods will be enforced.

The *National Intelligencer* says the ninth section was smuggled into the bill by wool manufacturers, who had twice in the Senate defeated the bill raising the duties on wool. The rate of the duty on wool is not anywhere stated. The official bill is not yet published. The bill imposes a duty on cigars at three dollars per pound, (?) and fifty per cent. *ad valorem*; on cotton, three cents per pound, and on compounds of which distilled spirits are component parts, the same duty as on spirits. Section two also provides that vessels trading between the Sicilia Islands, and the Sandwich Islands and the United States, to pay duty but once a year. These items are derived from the New York shipping list. The New York *Tribune* says it is understood that the proceedings relative to the imposing of duty on cigars of packages of less than 3,000, will be decided to take effect on and after the 10th of August, it being apparent that this was intended by Congress.

The folly of hasty legislation in the closing hour is illustrated by the so-called Omnibus bill, which by including the Equalization of bounties to soldiers, enabled Congressmen to raise their own pay to five thousand dollars per annum. It is now discovered that the section relating to the bounty was so unskilfully drawn as to be almost if not utterly valueless, and the Secretary of War has appointed General Canby, Surgeon General Burns and Colonel Buchanan to consider what may be done under it. The number of soldiers benefitted will be very few. No flaw however is discovered in the section relating to Congressmen's pay.

OUR SAN FRANCISCO DISPATCH.

"SAN FRANCISCO, August 3.—About two o'clock this morning a fire broke out in the carriage manufactory of Chas. Steinweg, on Pine street, which destroyed five two-story wooden buildings on the south-east corner of Battery and Pine streets. The following are the losses: Drager & Co., loss $3,000; insured for $3,600. Gallagher & Rodecker, loss $2,300; insured for $1,500. William Crosby, loss $2,000; insured for $1,000. Chas. Steinweg, loss $5,000; no insurance. Many of the occupants of the upper portion of the buildings barely escaped with their lives, so fiercely did the fire rage. The fire is supposed to have originated in the paint shop of Steinweg's carriage manufactory, but what started it is not known.

John Reed was arrested last evening for an assault with intent to murder Frank Cruze, proprietor of the Globe livery stable, on Pacific street.

The city papers here generally published $25,000 as the amount claimed by Shafter & Heydenfeldt from the city for counsel fees, instead of $2,500, which is the amount.

The decision of the present Supreme Court just announced in the case of Hess vs. The City of San Francisco, definitely settled the last of the six city slip suits pending in the Courts, by a decision in favor of the city. The preceding cases went against the city and increased the funded debt to the amount of $3,800,000.

Matthew Williamson and wife have commenced suit to recover $100,000 damages from Joseph Brothers, under the following alleged circumstances: Plaintiff leased a house from defendants who are the owners. In September last, Mrs. Williamson while walking across the kitchen fell through a trap door in the floor and broke her leg in two places. The plaintiff alleges that the trap door was apparently safe and secure; that the accident was caused by the defendant's negligence.

Nicholas Ely filed his petition in insolvency to-day.

The hearing in the case of Gustavus and Charles De Young, proprietors of the *Dramatic Chronicle*, charged with publishing a libelous article reflecting on the character of Thomas Maguire has been set for Wednesday next at the request of the defendants.

From Sydney.

By the arrival of the British bark *Kate*, we have dates from Sydney to May 14, from Melbourne to May 31 and from Auckland to June 6. California flour was quoted at Sydney on that day at £16 10s per ton, and wheat at 6s. 6d per bushel; California flour at Melbourne was £16 per ton. Oats in Auckland, May 25th, were quoted at 6s 3d per bushel.

California Bread and Butter Convention.

The National Union Convention assembled here yesterday and adopted resolutions endorsing the restoration policy of President Johnson and his Cabinet, declaring that a spirit of charity and moderation should control the political action of the country, and approving the call for a National Convention at Philadelphia, to which the following delegates were elected: First Congressional District, Hon. Cornelius Cole, Montgomery Blair. Second District, Hon. J. W. Wilcox and J. H. Riley. Third District, J. W. Simonton, Jacob P. Leese. The following are the delegates at large appointed: James R. Doolittle, Robert J. Walker, John A. Dix, and General Sherman. All the delegates selected are, with a single exception, citizens of California, now at the East. The President of the Convention and the Chairman of the Central Committee were then instructed to telegraph an abstract of the proceedings, and the names of the National delegates elect, to Washington. The Convention then adjourned.

A Fight with Indians.

The following despatch was received from Los Angeles last night: A special messenger who left Camp Cady has just arrived with a despatch from James R. Hardenburgh, Commandant of that post, which says that on Sunday, July 29th, they had a desperate fight with Indians; three men of his command were killed and one was wounded.

The dispatch also states that reinforcements were sent for. It seems the Commandant believes that the Indians will now band together in greater numbers to make other attacks.

There is a rumor to the effect that in the fight mentioned there were nearly 150 Indians, and that they were Pah Utes, but nothing in the dispatch justifies the statement. As to this it gives the number of the Indians at 36, but neither states how many soldiers were arrayed nor how many Indians were killed and wounded.

Trouble in the Democratic Camp.

The Democratic County Convention met last evening in secret session. The nominees had been informed that the Democratic ticket would not be elected, and many members of the Convention wished them to resign. All sent in their resignations save McElroy and Wintringer. McElroy offered to resign on condition that none of the others should be renominated. The convention would not accept this condition, and after three hours of debate a resolution was adopted to rescind all the nominations. The convention then adjourned to meet again to-night. It is reported that the convention will nominate Geo. T. Bohen for Superintendent of Public Streets, and a merchant named Wright for Chief of Police.

Judge Dwinelle to-day granted Joseph Martineau a divorce from her husband, Francis Martineau, and Theresa Mahler a divorce from her husband, Joseph Mahler.

Louis Zeig has filed his petition of insolvency. Liabilities $1,661; assets about $400. His losses have occurred through mining stock speculations and land litigation.

Henry R. Taylor has entered a complaint in the Police Court charging Horace Hawes with an assault with a deadly weapon. Mr. Hawes appeared in Court this morning and demanded an immediate investigation of the case. He stated that the charge was made without any foundation whatever, and was gotten up by parties who had conspired to injure his reputation. The counsel for the prosecution required more time in order to get his witnesses, and the case was postponed until Monday next at 12 o'clock.

The Pacific Mail Steamship *Golden City*, which arrived this morning, brings news that the steamer *Golden Age* had broken her shaft on her down trip, and put into Acapulco under one wheel. The *Age* left here on the 19th of July. Her passengers, freight and treasure will be compelled to stop at Acapulco for about ten days, until the arrival at that port of the *Constitution*, which left here on the 30th inst., when they will be taken on the latter ship to Panama. This is the third time the *Golden Age* has broken her shaft. The *Age* will return to this port for repairs, under convoy of the *Sacramento*.

The "Golden City's" Passenger List.

The Pacific Mail Steamship *Golden City*, which left Panama July 21st, where she connected with the steamer leaving New York, July 11th, arrived here to-day.

The following is her list of passengers: Mrs. E. Reed and 2 children, Miss Sinclair, F. Lebro, W O Bayright and wife, C Labenca, Alfred Mott, Dr Simpson, wife and 2 children, Dr N T Martin, U S A, M Hastings, W Gilmore, A B Raynor, M Sharp, A A Levi, J L Schmidt, Mrs L Moyer, H Michel, J C Olmstead, C Laird, Rev H Day, W H Smith, J S Sayer, C B Carey, A Phillips, Admiral Thatcher, wife and daughter, L C Pease, J Oleary, M McCormick, S H Phillips, S A Clapin, M Hussey, F Nash and wife, Miss M Hussey, C F Mitchell, S F Boswort, R S Clary, Mrs M A Julean, Mrs Laird, mother and two children, J Frankel and wife, Miss Frankel, Mrs. Samuels, Mrs Jones, C Scott and wife, A P Hulse, wife and child, Mrs Ann Mintour, Mrs McLee and child, Mrs Tilton and two children, Dr Lee, U S A, J Fahrendorf, W Stairly, Mrs E Pritchard and infant, G T Mayer and wife, J Q Baker, J O Weimer, Mr Walley, Mme Papler, Anna Mulsco, S Bonavet, D Nieman, wife and three children, Mrs Nieman and two daughters, Mrs A Butler, L Schrappepeln, E Pesoli, Mrs S Sturgis, A F Garrison, J K Gill, H A Fisher, S Saiz, J Ahern, J S Safford, baggage master and 180 other.

Central American News.

By the steamer *Golden City*, from Panama, we have Central American dates to July 21st. There is no news of importance. There was considerable excitement in Nicaragua in view of the approaching Presidential election. A large majority of the Liberal party are in favor of the election of General Bonilla, whose claims are also supported by the Government. In Costa Rica a French company are organizing to operate in the development of gold and silver mines.

The recent contract made by General Marquera, for the sale of the reserve of the Panama Railroad to William Cotterell, of London, has given rise to much discussion. It is feared that if the road passes from the control of the present company the public interests will suffer.

Mexican News.

Letters from Colonisto, of the 16th inst., bring the following highly important news:

The Imperial General Lozada, the great organizer of the imperial party at Tepic, has pronounced against his benefactor and raised the Republican standard.

The report of the battle of Camargo has been confirmed.

The Republicans under Negrete gained a contested victory through the defection of about half of the Imperial troops.

All the Austrians taken prisoners were shot, and the booty was nearly $200,000. The Liberals offered to deliver the goods taken in payment of 50 per cent. of the duties. The consequence of this vicinity was delivered up to the Republican forces.

The States of Oajaca, Chiapas and Tehauntepec are now entirely in possession of the Republicans, who have advanced towards Pueblo and Vera Cruz, to cut off the communication between these cities.

The Empress Carlotta, despairing of the Imperial cause, left Mexico for Europe on the 8th, but the Emperor has published a manifesto that he would sacrifice his last drop of blood in defense of those who have shown him sympathy; however, the defection is too general to leave any hope to the Imperial cause. Even its most faithful defenders begin to shake.

Monetary and Commercial.

In the absence of any gold quotations we naturally infer that there has been no material change in New York.

The Legal Tender market here is very quiet, and prices are nominally the same as yesterday, 71¾ buying and 72 selling.

The receipts of treasure from the interior during the week foot up $1,100,000.

The sale of stocks, legal tenders, etc., for the week, aggregate $295,545 against $314,262 for last week.

Trade during the past week has been comparatively light, partly in consequence of the uncertainties respecting the provisions of the new Tariff bill.

The jobbing trade, however, has been quite active, principally for Oregon, in consequence of the low freights at present ruling between this city and Portland.

The mining stock market continues to improve. Hale & Norcross was sold at an advance of $175 from the last cash sale on the 25th ult.; Gould & Curry shows an advance of $25 from the last cash sale of that stock on the 27th ult. From the morning Board yesterday, Yellow Jacket advanced $25, Ophir $15, and Chollar Potosi $2 50; on the other hand Savage declined $30, Overman $4 50, and Bullion $1 50.

Private telegrams quote gold in New York yesterday at 145@145¾.

The market of sterling exchange was greatly depressed in consequence of large amounts of U. S. bonds going forward to Europe. Best bankers bills on London are quoted at 10. Silver was selling in London at 61¼ pence per ounce, standard. Brokers here are buying legal tenders at 72@72¼ with little business doing.

The Markets.

Flour—Superfine half sacks per 196 lbs., $4 75@5; qr sacks $5 50@5 75.
Barley—Sales this morning of good feed at 90@92½c.
Oats—Choice old at $1 55 per 100 lbs.
Potatoes—Mission, without change at 50@60 ₱ 100 pounds, as in quantity.

Mining Stocks.

There is improvement in mining stocks. From the morning board yesterday, Yellow Jacket advanced $20, Savage and Belcher each $15, and Ophir $10; Bullion declined $1 50. Among other stocks sold here, were State Telegraph at 30c; California State Telegraph at 30c; California Navigation Company's at 71@75c, and Oakland Railroad at 42½c.

Arrived—August 2d, British bark *Kate* 65 days from Auckland, N. Z. August 3d, British bark *Marcella*, 159 days from Liverpool.

Sailed—August 3d, British bark Nov for Swansea.

SAN FRANCISCO, August 4.—The Eastern line is out of order beyond Fort Bridger. No Eastern news received.

THE ASSASSINATION CONSPIRATORS.—William White, of Henrico county, Virginia, who has been confined at the Dry Tortugas for the last two years, under conviction of being a spy during the war, has recently been pardoned and returned North. He says that Dr. Mudd's health is rapidly failing. Spangler and Arnold are quite well; their confinement does not seem to affect their general, physical or mental well being. The State prisoners are compelled to rise at 5 o'clock, A. M.; after breakfasting at 7, go out to work, and are employed in cutting and carrying stone to build the fort until 12 o'clock, when one hour's intermission is allowed, the work being resumed at 1 P. M., and continued until 5 o'clock. On rainy days no work is required. The same rations issued to United States soldiers are distributed to the prisoners, and, though coarse, is abundant and wholesome in quality. He reports the island as sterile and depressing in appearance, but as cooled by refreshing sea breeze, and the condensed water is palatable and healthy. He further says a marked improvement in the treatment of prisoners has been instituted by the officers and soldiers of the 10th United States Regular Infantry, who relieved the former garrison of negro soldiers.

"I say, Patrick, what do you think of President Johnson?"
"Faith and he is a good merchant."
"How so?"
"Faith, didn't he sell arms and ammunition to the Fenians, and then sell the Fenians?"

OFFICIAL PAPER OF THE STATE.

MONDAY MORNING, AUGUST 6, 1866.

Whom will They Represent?

A few bread-and-butter-hunters who represent themselves as residents of the Pacific coast, have taken the necessary steps, in New York, to have the Pacific States represented in the Philadelphia Convention. Jesse Williams, John S. Berry, Sol Sellar, John Carmichael, O. M. Wozencraft and Thomas H. Harris, Chairman, are the very obliging individuals who have the business in hand. Does anybody know who Jesse Williams may be? or who is John S. Berry, etc., etc., down to Thomas H. Harris, Chairman? They are a very obliging lot of gentlemen, be they one thing or another. But whom will these very kind and considerate gentlemen represent? The Union men of the Pacific coast do not want to be represented in the Philadelphia Convention. No movement has been made in Oregon by any party to secure a delegation, nor has any been made in Nevada, or elsewhere, save in the State of Santa Clara, in the county of California. Beriah Brown has not heard of any Democrats who are going into it. Who, then, is to be represented? Beyond a very few of the office holders on this coast, and a perhaps slightly larger number of office expectants and seekers, there are not to be found in Oregon a respectable baker's dozen of supporters of "my policy" among the original supporters of Lincoln and Johnson. Those who do not support "my policy" will scarcely thank the officious Jesse and the unknown Thomas who is Chairman, for their extreme readiness to represent Oregon. We repeat, the Union men want no representatives in the bread-and-butter concern. The Copperheads of Oregon affect to have no interest in the Convention. The office-holding few who belong to the "Mosaic" party have been heretofore very quiet, evidently not quite willing to hazard home prospects for the uncertainty of Presidential smiles. They have not said a word about sending delegates to Philadelphia; nor will they and the small crowd who are hungering after official comforts be likely to thank Messrs. Chairman Harris & Co. for stepping in at the eleventh hour, to gobble up the Presidential gratitude and thus take all the number one chances for the few Presidential favors to be dispensed in Oregon. Who then is to be represented?

But is it not really a significant commentary on the prospects of the bread and butter party about to come into existence, that so many of the States would go totally unrepresented but for the gratuitous zeal of a few chronic hangers-on about Washington City and chance visitors at New York? "Moses" ought in all fairness to feel grateful to Jesse Williams, Thomas H. Harris, Chairman, & Co., for averting the humiliation of failing to have a delegate from the Pacific coast. But, after all, the proceedings of Jesse Williams, Thomas H. Harris, Chairman, & Co., in assuming to represent the Pacific coast will strike most people as being about as impudent as anything that has happened within the memory of the "oldest inhabitant."

At the last State election in this county, a Union man who had tendered his services to the President to raise a regiment for service in the South and had his offer declined only on account of the expense of transportation, ran for Senator against an able bodied young man who fled to this coast from the East overland after the war had commenced. Every Radical preferred the skedaddler to the Union volunteer.—*Herald.*

We think we have heard the name of the aforesaid "Union man" mentioned. He is a most devoted patriot, as is sufficiently proved by the fact that he offered his services as a *Colonel of a regiment!* Was not that self-sacrificing and devoted? How that "Union man's" heart must have burned with fervid patriotism! Did his vest buttons hold? This same punting hunter after the discomforts of a Colonelcy once volunteered to be a *Major* in an Oregon regiment about to go against the Indians, but failing to be elected a Major, quietly returned home and hunted no more for military fame in that direction. Failing to make President Lincoln (*if, indeed, he ever offered to go to the war at all*), to see his fitness for a *Colonel's commission*, our heroic "Union man" did not seek further for martyrdom in the military service of his country. He had no stomach for the musket of a private soldier, nor indeed for the unpretentious strap of a line officer. "A Colonel or nothing" was the motto with which our hero [illegible] to his country's rescue. Brave, disinterested and martyred men, how art thou undervalued! A hero, then, and yet the "people" can't see it!

Beriah, do you know why the Union men of Multnomah did not prefer your "Union man" for State Senator? We will tell you. Because, failing to be appointed a *Colonel*, he joined the fortunes of the traitors with which you trained, under Vallandigham, and never uttered a word except to discourage and embarrass the Government and to cheer the rebels. He praised and supported the men who heaped [illegible] upon Lincoln and the loyal Congress, and the brave "boys in blue." He supported such treason-mouthing newspapers as you published. He could never find it in his heart to condemn anybody but those who were pouring out their blood and treasure to save the Union. He was a bitter Copperhead, Beriah, and Union men do not "prefer" that sort of men.

The work of constructing the Bread-and-Butter Convention goes on bravely. Men have been found ready and willing to represent anything over half the States, and Doolittle can represent all the rest. Illinois sends A. B., C. D., &c., and Doolittle. California sends E. F., &c., and James Doolittle. Ohio sends G. H., &c., and J. R. Doolittle. If such a thing should happen as that fifteen or twenty States should have no delegates present, the Executive Committee will snap its Bread-and-Buttered fingers and, presto, up will pop Doolittle to fill the breach. Doolittle really appears to be omnipresent. It is Doolittle on the front, Doolittle on the right, Doolittle on the left and Doolittle in the rear.

Doolittle has appointed S. Seymour to represent Oregon. Some people may imagine S. Seymour to be a myth; perhaps he is—we never heard of him as an Oregonian. If, however, Seymour is flesh and blood, he will be there and will comfort the "Mosaic" heart by the assurance that Oregon supports "my policy." If he should not be there, Doolittle can do it as well.

Our dispatches this morning contain the names of the California Delegates to the Bread-and-Butter Convention, and says, "with a single exception," they are "citizens of California now at the East." Among the names are Montgomery Blair, James R. Doolittle, Robt. J. Walker, John A. Dix and Gen. Slocum. Most people are under the impression that *all* of these gentlemen reside in the Eastern States. Which is the "single exception?"

Gen. Spooner recently made a speech at a Union meeting at Indianapolis, in which he said, "I hold the Democracy responsible for every empty sleeve we see in the streets, for the death of every Union soldier, for the war, and for the National debt."

WEST POINT GRADUATES.—Thirty-nine cadets graduated at the West Point Military Academy in June last. The eleventh on the list stands the name of the son of Frank Soule, Internal Revenue Tax Collector of San Francisco.

What a pity that the *Herald's* "Union man" who wanted to volunteer as a *Colonel*, was not in Baldwinsville when Artemus Ward was raising his company of Brigadier Generals. He could have vaulted into the very seat of his ambition.

DATES TO AUGUST 4.

An Opinion by the Attorney General—Appointments.

WASHINGTON, Aug. 3.—Attorney General Stanberry has given his opinion that the nominations rejected by the Senate can be legally made by the President during the recess of Congress.

The President has appointed Wm. T. Johnson Collector of Port of Philadelphia, and G. R. Slemmaker, three times rejected, Assessor of Internal Revenue of the same city.

Secretary Yancey has, under the law passed at the late session of Congress, appointed J. Ross Browne Commissioner to collect mining statistics in the States and Territories West of the Rocky Mountains. He will proceed to the Pacific coast by the steamer on the 14th. This is an important mission and will embrace the statistics of the products of bullion the population are engaged in mining, [illegible] of mineral lands, the capital engaged and cost of labor.

An application has been made to the General Land Office to have the land which will be occupied by the Sutras tunnel through the Comstock Lode of the Nevada gold mine withdrawn from the market.

Delegates to the Philadelphia Convention.

CHICAGO, August 4.—The following are additional delegates to the Philadelphia Convention, in part, from Virginia: Wm. C. Rives, John W. Brockenbrough, Thos. S. Flournoy, A. H. Stuart and Edgar Snowden. From South Carolina, Jas. L. Orr, Benj. F. Perry, Jacob L. Manning, T. M. Harokers, Jas. Farron and B. L. Wardlaw. From Connecticut, J. Dixon, Jas. E. English and Lorin P. Waldo. From Oregon, S. Seymour. From Delaware, Joseph P. Comegys.

Financial.

NEW YORK, August 3.—The *Commercial's* money article says the slight reaction in stocks noted yesterday, continues to-day. Government securities are quiet but steady. Reports are current that private dispatches have been received quoting 5-20's at London yesterday at 68, but we are unable to authenticate the rumors. The reports that large orders were received by the cable yesterday for 5-20's, appears to have been intended for an effect upon the gold premium. Large shipments of bonds will, however, be made to-morrow. At the board, quotations for Government securities were unchanged, except for old 5-20's, which were ½ lower.

Messages by the Atlantic Cable.

NEW YORK, August 3.—Five messages from Europe by the cable were received to-day.

OTTAWA, C. W., August 3.—Complimentary greetings have passed through the Atlantic cable between the Queen's and the Canadian Government. One of the messages took only eleven minutes to pass from New Foundland to London.

From New Orleans—Indictment of Members of the Convention.

NEW ORLEANS, August 3.—Martial law has been withdrawn. The grand Jury has found indictments against 25 members of the Convention, and their trial before Judge Abell will proceed.

OUR SAN FRANCISCO DISPATCH.

Mexican News.

SAN FRANCISCO, Aug. 5.—Yesterday Consul Godoy received a communication from President Juarez at Chihuahua, under date of June 2d. Nothing particular had occurred in that direction. All private letters teem with descriptions of enthusiastic welcome given by the people to the Liberal Government. The civil and military authorities, the most prominent citizens and ladies belonging to the first houses in the place all went a distance of three miles to meet Juarez and ministers. The military turned out in full numbers and paid due honors to the supreme authorities. All [illegible] in a procession that moved through the principal streets which were adorned with flags, bunting and triumphal arches with mottoes allusive to the circumstance. In the evening there was a general illumination and grand ball which was attended by the President and his ministers. Nothing is said of the great expedition to the North, said to have been set on foot by Marshal Bazaine in the hope of driving the Liberals from Chihuahua, and the adjacent States, and it may be that work will be found for his forces nearer home before long.

From Honolulu.

The ship *A. H. Willis* from Sydney via Honolulu reports that Capt. J. A. Mitchell, late [illegible] of the ship *Hornet*, burned at sea, arrived at Honolulu together with the remainder of the crew and two passengers which [illegible] all that were in the long boat. It is really wonderful under such privations no one of their number died, and speaks much for the skill and management of the Captain. The Fourth of July was joyously celebrated in Honolulu.

San Francisco Democratic Convention.

The Democratic Nominating Convention met last evening pursuant to adjournment. The motion to enter upon the nomination of a new city and county ticket throughout was carried, and the Convention went to work with harmony and good will to select the victims. First in order was the nomination for Chief of Police. J. P. White, a reputable merchant of San Francisco, formerly Sheriff of Sierra county, and said to be a first rate man, was nominated by a handsome majority and made unanimous. Tax Collector General H. A. Cobb had hardly the show of opposition and his nomination was also made unanimous. Seldon S. Wright was unanimously nominated for the office of City Attorney. Col. M. C. Smith was selected as the nominee for Public Administrator. Washington Bartlett was nominated for Auditor, and Leander Wenting for Superintendent of Streets.

Military Posts Broken Up.

Halleck has issued orders to break up the following military posts in the Department of Columbia: Forts Chehalis, Yamhill, Bellingham, Hoskins, Cascades, Dalles, Siletz Blockhouse, and Port Orchard, and that the terms forts shall not be applied to temporary camps.

The number of deaths in this city last week were 42.

The Markets.

FLOUR. Beyond a fair jobbing trade there is nothing to report. Superfine half sacks of 196 lbs. at $4 65@5 00; quarter sacks $5 00@5 25; extra half sacks $5 75@5 50, quarter sacks $5 50@5 75.

Wheat. Sale of good new at $1 55.

Barley market quiet. No particular inquiry. Feed is quoted at 80@85 and brewing at 87@90 ℔ 100 lbs.

Oats inactive and prices entirely nominal.

Potatoes, the market is unchanged at 60@60 ℔ 100 lbs.

Arrived August 3d, Hamburg ship *A. H. Willis*, steamer *Oriflamme* from Portland, and the steamer [illegible] from Portland.

FROM EASTERN OREGON.

FIGHT WITH THE INDIANS.

Mr. M. M. McKean, member elect to the Legislature from Grant County gives us the following information of a fight with the Indians on Cow creek, in the Harney Lake country: Lt. Bessand of the U. S. cavalry with twenty-seven men had been sent out from Camp Watson on a scout. On the 18th ult. a corporal with eighteen men came upon the Indians in a canyon, drawn up in battle array with their [illegible] in front and footmen in the rear. Immediately upon discovering them, the corporal charged upon and succeeded in driving them, killing nine Indians. On the 19th the pursuit was begun again and on the 20th, the detachment met a company of citizen soldiers from Powder river, increasing the force to forty-seven men. They soon came up with the Indians, attacked and drove them again killing three or four more and capturing four prisoners, eleven horses and two mules. As the pursuit continued, the Indians began to scatter, one at a time in various directions, the soldiers following the main band, till finally it was found that only one or two remained to be chased, when the pursuit was abandoned. Only one soldier was killed—in the second day's fight. He was shot through the breast and died in about three hours.

The number of Indians was estimated at eighty warriors and including all the people, about three hundred. They were effectually scattered in every direction. The location of the first day's fight is about one hundred and eighty miles from Canyon City.

A few days before the fight a white man who called himself Buras and said he came from Canyon City, joined the Powder River Company, but subsequently went to Auburn to leave his blankets and was to rejoin the company, was not again seen. During the second day's fight with the Indians he was discovered to be among the red skins mounted and assisting them. It is thought he had joined the Powder river Company, learned their designs and, going back, had prepared the Indians for the contemplated attack. Lieut Bernard's command had returned to Camp Watson.

POLITICAL MATTERS IN IDAHO.—A writer in the *Avalanche* says that there is no political enthusiasm among the masses of the people, although some individuals have got a tremendous head of steam on.

J. S. Reynolds, editor of the *Statesman*, in consequence of sickness, has resigned his candidacy for the Legislature.

Of O'Meara, the played-out autocrat of Oregon Democracy, the Union says: "In last Tuesday's issue we published a challenge from Mr. A. C. Isaacs, the next treasurer of this county, to Mr. James O'Meara, to discuss the political issues of the day, and in which he gave Mr. O'Meara the choice of time. The latter, for reasons of his own—like Weller and others—has not accepted the challenge, but is tapping himself for "State rights" wind at the outside places, to slim, thin and disgusted audiences. He is at least fifty years behind the age. His notion of State rights was throttled by old Hickory in 1832, and he held on to its neck till it showed signs of repentance. In '61 Lincoln broke its back across the Union rock; and O'Meara's "State rights" is now only a fantastical myth."

Kirkpatrick and other Union speakers have gone into the northern counties, to press the canvass. Union prospects are cheering.

The Red Bluff *Independent* says: "Owing to the late excessive heat, much of the fruit crop in the lower part of the county is blighted as badly as if the trees had been set on fire."

PICTURE FACT.—ELLSWORTH & CARDWELL, 59, First street, received by the last steamer, an order from a gentleman with a prominent mercantile house (and a well known citizen of San Francisco,) from which the following is an extract: "Please send me, by Wells, Fargo & Co., another dozen of those *vignettes*, and oblige yours," &c. As the writer is an excellent judge of PHOTOGRAPHIC WORK and the fine arts, his letter to the above firm proves, beyond a doubt, that they can produce equal, if not superior, PICTURES at their Gallery here to those coming from the first-class establishments of the California metropolis.

Departure of Visitors.—The iron steamship *Fidelitér*, Capt. Erskine commanding, took her departure for Victoria on Saturday last at 5 o'clock P. M. Among her passengers was Gen Rufus Ingalls, Quartermaster General of the United States Army, and Col Babcock, of Gen. Grant's Staff, who are on a tour of inspection through the north west, and Major Glenn of Fort Vancouver, who goes to pay the troops stationed at the ports on Puget Sound. Col Sackett, of Gen Sherman's staff who is also on a tour of inspection, arrived on the steamer *Wilson G Hunt* on Saturday evening, and proceeded with the same party to Puget Sound. Col Sackett comes from St. Louis, via the Missouri river and Montana Territory. He was dispatched thither with orders from Maj.-General Sherman, to inspect the military posts and to ascertain the most feasible route to and from the Missouri river. He has made no official report, but is of the opinion that a railroad can be built from the Bear river [illegible] across the Blue mountains to the Columbia. His mission is an important one, tending towards the development of the territories of Montana and Dacotah, as well as the ultimate interests of Oregon. We may remark, incidentally, that he is greatly pleased with the country through which he has [illegible], and gives us very encouraging confidence of the future prospects of Portland, in securing a large proportion of the valuable trade of the new but wonderful country between the Columbia and the Missouri rivers. Judge Brockway, of the Eleventh Judicial District of California, and Col Hayward, of the firm of Hayward, Coleman & Co, of San Francisco, owner of the famous "Hayward mine" in Amador county, were also passengers by the *Fidelitér*. These gentlemen arrived from San Francisco by the *Orizaba*, and are on a tour through this region of country to see what it consists of. They will charter an [illegible] on Puget Sound, and after visiting the various points of interest in that section, return to Portland, take a trip over the line of the Oregon Steam Navigation Company, visit Santiam, and return to California by the Oregon Stage Line.

Good News.—Our old friend J W J Pierson, who is at present in this city, received the following intelligence in one of the San Francisco papers, a few days since:

"About 11 o'clock last evening people living in the vicinity of Powell and Greenwich streets noticed an unusual commotion in the house of J. W. J Pierson, and knowing that his family was away, proceeded to investigate the matter, when it was discovered that the house had been entered by burglars and ransacked from top to bottom. The burglars escaped upon noticing that their movements were discovered. Owing to the absence of Mr Pierson's family, it is impossible as yet to know the extent of the burglars' depredations." The best portion of the matter came by private letters, which states that there was no foundation in truth for the item. No robbery was perpetrated, and the house had not been entered. The letter says the report was in reality, "sound and fury signifying nothing."

Climbing Mount Hood.—We give place this morning to a very interesting sketch of a trip up Mount Hood, which we clip from the Vancouver *Register*. There is quite a desire on the part of many people to take a like trip, and why should not men scale the lonely heights of this majestic old mountain? There is much truth and some considerable philosophy in it. A cotemporary says man is born to climb, as the sparks fly upward. "Excelsior" is written on every cradle. He [illegible] may chip the egg anywhere in the lowlands, even upon the sloppy edges of a marsh, but the [illegible] to roost high grows with its growth. To stay down and look up is to give proof of an [illegible] stagnant will. To get up and look down is the sane ambition of our kind.

Army Supplies.—Under the advertisement of Maj Foster, Chief Commissary of Subsistence for the military Department of the Columbia, the following awards were made to Messrs. McCraken, Merrill & Co., of this city, at Fort Vancouver, on the 31st ult: 800 lbs Salem Mills flour, @ $4 93 ₱ bbl., 800 lbs. corn meal, @ 3½c ₱ lb., 15,000 lbs. white beans, @ $3 45 ₱ 100 lbs.; 25,000 lbs brown sugar, @ $7 95 per ₱ 100 lbs.; 20,000 lbs do., @ 6½c ₱ lb.; 40 doz canned tomatoes, @ $3 ₱ dozen; 50 doz. canned peaches @ $4 50 ₱ doz., 14 doz. canned jams, @ $2 ₱ dozen.

Good Templars.—The following officers were chosen and installed in Multnomah Lodge No. 12, I O G T., on Saturday evening last, for the quarter ending Nov 1st, 1866. L. M. Parrish, W. C. T., Miss Mary E [illegible], W. R. H. S.; Miss Sarah Ingram, W. L. H. S., Mrs. C. L. Brown, W. V. T.; Jacob Stitzel, W S., Miss Mary Pennington, W. A S; E. B. Burlingame, W F S., Miss Mattie Boon, W. T.; L. Weatherford, W. M., Miss Tettie Terwilliger, W. A. M., Miss Alice Morgan, W. I G., H. W. S. [illegible], W. O. G., Rev. B. C. Lippincott, Chaplain.

Military Movements.—We learn that General Steele has decided to take the field against the Indians of the [illegible] country, and for that purpose will leave Fort V[illegible] to-day, with all available force, consisting of a [illegible] of mounted Infantry, under command of [illegible], and Capt. Owen. A portion of Company I, Oregon Infantry, and Company C, Oregon Cavalry, who have been doing [illegible] protecting Old Halleck's pet route from Chico to Owyhee, arrived at Vancouver on yesterday to be mustered out.

The Code.—W[illegible] Albert & Co., of the Book Bindery, in this city, [illegible] the [illegible] of the code of laws for this State, on Saturday. This [illegible] very large and laborious work, and the employees of the establishment feel quite thankful that it is done with. The firm are now ready to [illegible] other work, and will be pleased to have [illegible] who with anything in that line give them a call.

Excursion.—The steamer *Fannie Troup*, Capt. Trumbull, made a special trip to Oregon City on Saturday last, with Gen. Rufus Ingalls, who wished to see who had been there since he has been gone. The General was accompanied by Gen. [illegible], Commander of this Department, Col. Babcock, Col. [illegible] and Major Glenn. Major Frank [illegible] accompanied them to this city, from Fort Vancouver in the morning.

Real Estate Sale.—Messrs. [illegible] Brothers have the [illegible] of the [illegible] Court House property, disposed of at [illegible] on [illegible] by order of the County Court. The property was sold under the hammer by [illegible] Kilburn, and brought the price of $17,700 in coin. The land embraced 50 by 100 feet at the corner of Front and Salmon streets, and has upon it a frame building about forty feet square, two-stories high.

Going East.—Rev. B. C. Lippincott, pastor of the M E. Church in this city, is about to leave for the East on account of his health. We learn that it is his intention to take passage by the *Orizaba*, which leaves this city at 7 o'clock to-morrow evening. We trust the trip will be the means of restoring his health, and that he may return to live among us for many years in the future.

The Court House.—The truly magnificent building erected for this county by Messrs. Goodenough & Clarke, will be [illegible] to-day for the first time in Court [illegible]. An adjourned term of the Circuit Court, Judge E. D. Shattuck, will be held for the trial of chancery cases, and the regular term of the County Court, Judge P. A. Marquam, will convene at 10 o'clock A. M.

Home Again.—We are pleased to meet with Drs. Chapman and Loryea, Hon. J. H. Mitchell, Judge J D Lacey, Mr. F. B. Mason, and other Oregonians who have been on a visit to California. They returned by the steamer of Saturday looking robust, and quite as if the sea voyage had done them much good.

Exports.—The exports by the steamship *Fidelitér* on Saturday last, were as follows for Victoria: 663 qr sks flour; 60 sks. wheat; 2 bales manufactured goods; 2 bales leather; 4 bales blankets, 1 trunk merchandise, 9 bales cheese; 9 boxes nails.

Sale of Government Property.—As will be seen by the [illegible] of Col. Hodges, in another column, there will soon be public sales of property at Forts Yamhill, [illegible], and Chehalis, consisting of officers quarters, soldiers barracks, shops, store-houses, etc.

Coast Surveying.—Mr M J. Kincheloe, of the U S. coast surveying corps, arrived by the *Orizaba* on Saturday last, prepared to make a complete survey of the entrance of Tillamook bay.

Annual Conference.—Several ministers are in the city *en route* for the annual conference of the M. E. Church, which is to be held at Albany, beginning on Wednesday next.

The Orizaba.—This steamship will sail for San Francisco to-morrow at 7 o'clock P. M.

Public Thoroughfares.

Editor Oregonian:

Your remarks under date of August 3d, relating to public thoroughfares, suggests a few facts which perhaps do not occur to the public in general. You speak of the road between Milwaukie and Aurora, which has had scarcely any work done upon it this season. In Clackamas county outside of Oregon City limits the charter of Oregon City, I am informed, places the matter of the road tax raised within the city in the hands of the corporate authorities, who use such road tax for the improvement of their streets and roads alone within the city.

Portland, on the contrary, expends her entire road tax, $15,000 to $20,000, outside the city limits, otherwise we would not have a road that could possibly be traveled. In a community where people are so sparsely settled in the timbered districts, the citizens of the large towns must work their road tax *outside* the city, and let the real estate property in the city pay the street improvements. If our Oregon City friends would look to their interests and have their charter so amended as to compel the road [illegible] to be worked outside the city limits, they would soon have better roads. The natural lay of the land along the river bank for some miles above Oregon City, will make it a fair natural road, provided a reasonable share of their road tax is worked out upon it. By the present system they are fast turning the travel via Boon's Ferry. Between Milwaukie and Oregon City the soil for most of the way, is peculiarly adapted to make a good road, being mostly gravel and susceptible of good drainage.

I [illegible] these few suggestions, believing that the citizens of Oregon City do not realize the injury their present system inflicts upon themselves. Being interested in good roads, it has led me to make some inquiries why there is so little work done on the roads in Clackamas county. If I am mistaken in this system, then I am misinformed. Yours truly, H W CORBETT.

Under the doctrine of state rights as taught by Andrew Johnson and the Copperheads, by what right does the Dictator say, "Any changing of the ordinances and laws of the State of Louisiana is usurpation and will not be tolerated?" How is it that the people of a State may not in the exercise of state rights, change their laws and ordinances without asking the consent of A. Johnson? Do not these matters belong to the State?

FROM IDAHO.

The following is from the Ruby City *Avalanche* of July 28th:

MINING NEWS

We condense the following:

In the "Poorman" there are thirty odd men engaged in taking out ore and the number will be increased.

The Lichman Ledge is located on the north side of War Eagle and has a north and south course as nearly all do. It was discovered some months ago, but until recently nothing was done towards its development. A tunnel is being driven in the discovery and a shaft on the first extension [illegible]. A ledge of decomposed and solid quartz [illegible] with granite can now be seen. At the further end of the [illegible] the granite is giving way and in its solid quartz is showing itself. The decomposed quartz is full of free gold which is easily obtained by panning.

The "Brook and Jennings" is being prospected by the New York and Astor Company. The old shaft is being cleaned out and a new one is being sunk about seventy five feet north of the old one. The latter is already down fifty feet and the ledge is one foot wide.

The Morning Star Second South Extension is also undergoing a sensible prospect by the same company. They will sink the present shaft to a depth of one hundred feet. They are down over forty feet now and taking out some very rich ore. The ledge is narrow, but we are informed that it is increasing in size. The rock is rich enough—the quantity is the only point to be established by prospecting.

The Cosmos company have procured an interest in the Carrico and Varney ledge. Miners are engaged in sinking on the ledge and taking out ore.

Colonel Fogus expects to create a quartz mill in the Flint District this Fall and is now increasing his laboring force in that district. Mr. Black is expected with his five stamp mill in a few weeks, and will have it in operation as quickly thereafter as possible. Several more ledges have recently been discovered—among them a very large and rich one by Fred. Warnkey and Swart. It is reported to be seven feet of solid quartz with a streak of almost pure black sulphurets of silver. This seam is about four inches in width.

The N Y & O Co are enlarging the settling capacity of their mill. There will be eight more settlers added and the building enlarged to make ample room. For a time to come, the mill will run on Poorman rock, also, the Greenback.

With but few exceptions, the Chinamen have possession of the creek and are working it for several miles, between Ruby and War Eagle [illegible]. This is at least three miles further down than any white men have worked it since we've been in the country.

LABOR ON THE LEDGES.

At no period in the history of Owyhee has there been so much real labor done on ledges as at this time. There are hundreds of men aside from organized companies, thus employed that the public know nothing about. The Cosmos company must have fully one hundred men engaged in mines, the New York & Owyhee company half as many—probably more; the New York & Astor company nearly fifty, the Lincoln forty to fifty, the Surplus Oro Fino as many; and Moore & Fogus about one hundred and fifty. The War Eagle company have let a contract and men are sinking a shaft on their purchase the Revenue. There is a large amount of building being done, but when we wish to get revived up a little in a business way, we get out in the gulches and on the mountains and see the earnest men at work on the ledges—upon which every other interest depends. The building of mills, houses, &c., is in vain unless a corresponding activity pervades the mining interest. Everything looks hopeful. The more thoroughly men examine the veins of Owyhee county, the more sanguine they are of their richness. It requires a great deal of time and much money to get a quartz mining camp to be fully as prosperous as appearances indicate.

IDAHO TO BE REPRESENTED AT PARIS.

Specimens of Owyhee quartz and native silver will be exhibited at the Great Paris Exposition of January, 1867. There will be specimens of Poorman ore forwarded which will be the wonder of the assembled representatives from every part of the world. It requires a sight at many things to convince the incredulous, but the specimens that will be on exhibition in Paris will open the optics and convince the mind of many a Johnny Bull and Frog-eater of the riches of Owyhee.

THE INDIAN CAMPAIGN.

Col Jennings arrived from the Indian country yesterday—having been on the war-path since June 23d. He has had from thirty to two hundred men with him, and no doubt has accomplished all that as many men could do in such a country with such a foe. They have killed thirty or forty warriors and drove the remainder to the vicinity of Warner's Lakes, one hundred and twenty five miles west from here, near the California and Oregon lines. Capt. Collins is in that vicinity, and a dispatch from him was received at Camp C. F. Smith, on the 24th, saying that it would be advisable for Capt Walker to use his force—about sixty men—to give protection to the stages and freight trains and prepare quarters and forage for winter. It is believed that a more effective campaign may be made against the devils in the winter than now; also, that little further trouble may be expected from them up the Owyhee, and that a stronger force is needed at White Horse, as that will be more liable to raids. Although not many Indians have been killed, the recent expeditions have unquestionably been valuable to this region generally.

HAY AND POTATO CROPS.

There will be about three hundred tons of hay cut and baled on Jordan Creek this summer, and we believe fully five hundred might and should be [illegible].

Potatoes are growing on Jordan Creek near the Allison mine, and within one-half mile of snow. The vines have a dark green hue, and indicate the propagation of a large crop.

MORE INDIAN RAIDING.

A Mr Woodward had eight horses stolen by Indians on last Sunday night, at Osborn's Ranch, on Cow Creek.

The following is from the Idaho City *Union*:

CROWDED WITH [illegible]

Our streets for the past two or three days have been jammed and crowded so that it was difficult to move about, with loaded teams discharging freight from Salt Lake, Chico and Umatilla, at the stores of our merchants. We understand large amounts are now on the way and destined for this place. This shows where the confidence is. When our prodigal sons return from the Blackfoot delusion we can afford them a pot of beans and slice of bacon at least.

ROAD AGENTS [illegible]

We are informed that Mr. Phelps and lady, who left [illegible] for Salt Lake City, about two weeks ago, were robbed of about seven hundred dollars. Also, that Dan O Connell, who took his departure last week, came in contact with road agents.

HILL & CO.'S NEW ROAD.

We understand that the horse and ox teams which arrived in our city from Umatilla within the last few days, passed over Hill & Co.'s new road, from the Star Ranch to this place. They came through in less than one day, without locking or having to double.

FROM WASHINGTON TERRITORY.

We are indebted to the *Register* of the 4th, for the following items:

THE VANCOUVER MINES.

Since our last issue, an assay of four pounds of rock from the Morning Star, was made by Mr Deschamp of this place which resulted in about $55 to the ton.

The same person is now preparing to test 20 pounds taken from the tunnel lately commenced by Mr Beall on the Columbia ledge. This rock has a fine appearance, and is thought perhaps, by the best judges, to be the richest rock yet found in these mines.

The owners of Columbia ledge being well satisfied with the rock generally, at the depth at which it is exposed by Mr. B's tunnel have directed him to sink a shaft at its termination, for the purpose of testing the quality of the rock at greater depths, with a view to the erection of machinery should the rock prove as good as is expected.

The owners of the Morning Star have carried their tunnel about 40 feet into the lodge proper, by which they are enabled, as we are informed, to procure rock for testing at a depth of 35 to 40 feet below the surface. They propose to send a ton of this rock by the next steamer to San Francisco and have it subjected to a working test.

More excitement has existed during the past week than at any former period, if indeed it may be said that any has existed before.

Several water companies have been organized, and we are assured that some of them will proceed at once to the construction of ditches and the erection of machinery.

We think it may now be safely stated that a want of confidence will no longer prevent limited investments, or retard a moderate development of the mines.

FIRST SALE OF MINING STOCK.

We are informed that Mr. P Healy has sold Capt Kelly and Lieut. McGuire a half claim for $50. The first sale may be regarded as an event of some importance and it is with some degree of interest that we record the first transfer of feet for a consideration in our mines.

ACCIDENT—A LEG BROKEN.

Mr Thomas Nye, who lives a few miles out of town, was accidentally thrown from his wagon, in town, on Tuesday last, and got his leg broke below the knee. We understand that only one of the bones was broken. Doctor Semple was called to his relief and he is doing well. It is not likely that he will be confined to his room more than a few weeks.

THE CROPS.

We are not very well advised in relation to the crops, but generally, so far as we have heard, the reports are favorable. The early part of the season being wet, was favorable to the gravelly soil of the plains, and there the crops, especially the small grain which constitutes the most valuable item, are probably more than the usual average both in quantity and quality. The latter part of the season being favorable to the swale lands, the crops on these are likely to prove better than was calculated. The hay crop we think is good and larger than usual.

Our county has suffered considerably from the overflow of the Columbia. The high water continued so long that but little, comparatively, will be raised on the overflowed lands, still we think our aggregate crop of all kinds will be larger than that of any former year.

I O G T INSTALLATION.

At the regular Quarterly Installation of Columbia Lodge, No. 2, I O of G T., held on Wednesday, July 25th, the following officers were installed for the ensuing quarter: H. G Struve, W. C T. Mrs R. Tripp, W. V. T., W. D Pittenger, W. S. James Cochrell, W F S., Mrs. Glinder, W T. H C Morse W M., Miss Josephine Eddings W I G.; George Weadon, W. O. G.; J H Walsh, W C., Miss S Wood, W R H. LEFT IN A HURRY.

A mean fellow by the name of Gillet left here a few weeks ago in pretty much of a hurry, after having stolen whatever he could get his hands on. Said Gillet, pretending to be a white man, has a squaw for a wife but she undoubtedly has the worst of the bargain, and we mention the matter simply as a means of identity. Such a scamp ought not to go unwhipped of justice and we deem it nothing more than a public charity to give him the benefit of a public notice. He is supposed to have gone to Fort Colville. Will some of our cotemporaries be kind enough to give him a place in their columns. Perhaps the Walla Walla *Statesman* circulates in that direction.

SUPREME COURT OPINION.

We publish this week the opinion of the Supreme Court in the case of Jacob Dubach vs A J Lawrence *et al* rendered by Judge Wyche at the late special term of the Supreme Court. There are important points of law pertaining to the rights of married women involved in the case. The Court expresses a unanimous opinion "that a married woman may, under our laws, by joining in the conveyance with her husband, charge her own separate estate by mortgage with the payment of a debt, but only to the extent that such estate is included in the mortgage, except for necessaries and perhaps in other limited cases."

Portland R. A. C. No. 3.—Regular Convocation on the second Thursday evening of each month.
By order of M E H P.

STATE ITEMS.

Little Jeremy Diddler O'Meara, late of the Confederate *Democrat*, is stumping for Holbrook in Idaho.

The annual conference of the M E Church of Oregon will convene at Albany on the 8th inst.

Several parties have lately left Eugene City on excursions into the Cascade mountains and to Yaquina Bay—all bent on fishing, hunting and other amusements.

Orders are issued, as will be seen by our telegraphic dispatches, for the abandonment of Forts Hallec, Yamhill, Hoskins and [illegible] Block house.

Mrs Day, of Eugene City was a few days since thrown from a horse while attempting to get on board the ferry boat. She had a thigh broken and was otherwise badly injured.

Messrs. W N Luckey, N Poindexter, and Lemly, went up the Middle Fork on a fishing expedition a few days ago, says the Eugene *Journal*, and caught upwards of two hundred trout.

A gentleman just down from Canyon City informs us that on the 24th ult a miner named Peter Lasbrook, was so seriously injured by the falling of a bucket upon him that he died a day or two after.

A telegram from Oakland last night, 5th, says: Garrett Maupen was instantly killed yesterday by the upsetting of a load of wool which he was hauling to Scottsburg. He leaves a widow and large family.

We learn that the military authorities have it in contemplation to organize a company of friendly Indians to operate against the hostile Indians in the region of Canyon City. With a few white men to lead, the plan would be likely to succeed.

Last week we stated that the Willamette boats were unable to go farther up than Albany in consequence of low water. We had information to that effect, but the *Gazette* of the 4th says the *Echo* is still making trips to Corvallis with fair freights, and will continue to do so, "provided the bars keep moist."

We are pleased to learn from the *Gazette* that Corvallis is the theatre of the "busy hum of machinery," the "clatter of steam saw mills," the "hurrying of loaded teams," "crowds of visitors at the City Hotel awaiting for Lytle & Brothers four horse stage to Yaquina," "multitudes of cash customers, etc, etc, etc." Corvallis is a great city and Yaquina is its metropolis. Amen.

A correspondent at Burnt river, under date June 30th, writes: "Last evening at about twilight the Indians stole twenty horses from a pack train, near Rye valley Bridge on Burnt river; owners unknown. I saw one of them—the owners—this morning, but was not acquainted with him. It is of no use to complain if we are 'cleaned out,' for the *Chico route must be protected*, because all of the inhabitants live on that road, and Gen Halleck at the *tail end*."

Old Boyakin publishes a card in the *Gazette* inviting an investigation into the charges of lechery and seduction, made against him by the Baptist association and the newspapers. The same card was published in the *Herald* of August 2d. If Boyakin wants an investigation why don't he begin it? We think Boyakin is in the predicament of the Irishman arraigned in court on a criminal charge, who, when assured by the Judge that he should have justice done him, replied, "Faith, yer honor, that's jist what I'm afraid av."

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects caused by a relaxation of the outlet of the bladder. It is a most successful remedy for Gravel and other diseases of the Kidneys and Bladder, and for Female Diseases is unequaled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppression, Incontinence of Urine, Bloating and Dropsical Swellings, and all Diseases of Pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded. S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and must supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has our private U S Stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in Bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U S Law, and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

G. VENARD,

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

The Summit of Mount Hood.

[From the Vancouver Register]

SUMMIT OF MOUNT HOOD,
Thursday, July 26, 1866, 1 o'clock p m. }

I date this letter on the extreme summit of the highest mountain of the United States After thirteen years of desire, this wish is gratified, and I am now standing upon that hoary summit which rises, so grandly, so proudly, above the other mountain elevations of the range which it domes, as well as above all others of this broad Union. Because there is but one Mount Hood, there is no higher altitude to scale. I must be contented, then, within my present elevation until the Union embraces this whole North American continent, then I may think of some greater elevation.

But I will descend for a time, and tell my readers how I reached the summit. The party organised for the ascent consisted of Mr. J. C. N Moreland, formerly of the *Register* office, Mr. A. Waltz, and Mr W. Waltz, of Portland, and myself. We had engaged to meet at Revnue's on Tuesday, July 24th, and accordingly, at the appointed time, found ourselves together at that place, and prepared to enter the mountains. Revnue's is situated where the main emigrant road finally crosses the Sandy river, and leaves the mountains. With the exception that the road in one or two places leaves the valley to cross over points which crowd down to the river forming perpendicular bluffs, it continues up the valley of that stream for a distance of thirty or thirty-five miles, when leaving the valley it makes a *detour*, to gain the summit ridge. Here the way ascends the celebrated "Laurel Hill." This hill, which was justly the dread and terror of the emigrant for so many years, has been graded so that its ascent and descent are comparatively easy. A company is engaged in improving the road, and we must say is really accomplishing what it proposes. Having traveled up and down Laurel Hill some seven or eight times before, I was not prepared to see so much improvement in it, and in all the road.

Reaching the top of Laurel Hill we are on the general summit of the range. That summit is a comparative level of perhaps ten miles in width, whose general character is that of a swamp or marsh. The swampy places are bridged, so that travel over it is comparatively easy. On this summit is a dense and grand growth of fir, cedar, sugar pine and kindred evergreens, with an almost impenetrable undergrowth of Laurel. There is an inexpressible sense of loneliness in these deep solitudes. Struggling rays of sunlight only here and there find way through the dense foliage, and then fall cold and white upon the damp ground. Passing over this summit level, we crossed two bold, clear streams, dashing down from the direction of Mount Hood over a sandy, rocky bed, and turning to the left took a plainly marked trail leading in the direction of the mountain. After a ride of an hour and a half over a continuous, and in many places steep ascent, we came out into an opening of scattered trees which sweeps around the south side of the mountain. The mountain now stood directly before us. It was about five o'clock when we emerged from the forest, and stood, for the time, appalled, confronting the wonderful body of rock and snow which spring up from the average altitude of the mountains, and entered into wedlock with the bending ether. The bewildering greatness without, inspired an unutterable awe within, and now, as often as memory recurs to that moment the same awe creeps back on the soul We selected a place for our camp on a beautiful grassy ridge between one of the main affluents of the *Des Chutes* and one of the Clackamas rivers, and which really constitutes the dividing ridge of the mountains. We erected a booth of bows, gathered fuel for a large fire during the night, and spreading our blankets on the ground slept well until the morning.

At 7 o'clock of Thursday we were ready for the ascent. We arranged to ride as far as we should find it practicable then tie our horses to some rocks, and make the rest of the way on foot. For the first mile and a half the ascent was very gradual and easy, over a bed of volcanic rock, decayed, and intermixed with ashes Huge rocks stood here and there, and occasionally a stunted juniper found precarious foot-hold in the interstices of the rocks. These with moss and lichens formed the only vegetation. We [illegible] at the foot of a broad field of snow which [illegible] around the south side of the mountain for [illegible] miles in length extending upward to the immediate summit of the mountain perhaps three miles. The ascent of this snow field is comparatively easy. It is smooth, and only in places so steep as to render the footsteps uncertain. Near the upper edge of this snow field the deep gorge from which flows an affluent of the *Des Chutes* on the right, and of Sandy on the left approach each other, and seem to cut down into the very foundations of the mountain. The waters were rushing from beneath the glaciers, which at the upper extremity were rent and broken into [illegible] and corners of unknown depth. From some of these was issuing a blue sulphurous smoke exceedingly nauseating.

A few hundred feet above this we reached a point of rocks projecting through the snow, from which steam and smoke were issuing, and which were in places so hot that we could not hold fragments of them in our hands. Here we lingered for a time, and then turned our faces towards a yawning chasm which cut across the field of ice some five or six hundred feet altitude from the summit of the mountain and perhaps two hundred above where we stood. Following the course of this chasm to the left, we found a place where, with a little care, it could be crossed by the help of our staves, and then turned our faces directly up to the last steep ascent towards the summit. This ascent was at an angle of not less than sixty-five degrees, but the snow was softened by the hot sun so that it was not difficult to obtain a foothold, though the climbing was exceedingly toilsome. It took us near three fourths of an hour to make this ascent. But as we neared the summit, a grand and thrilling excitement seemed to thrill and kindle through every nerve, and we sprang upon the pinnacle with the agility of gazelles. At one o'clock P. M., we reached it, having been just six hours in making the ascent from our camp Now let us look around.

The summit of the mountain is a circular ridge of three or four hundred yards in length, having its outward curve to the north. On this ridge there are three or four eminences rising a few feet above the average of the ridge. The highest of these is the one to the east, though it is only a few feet higher than the others We passed along the entire ridge and over all these elevations. The snow upon them was from six to ten feet in depth, and only in one place did a single rock project through it. That was the extreme summit of the highest point of the ridge. On this rock, covering these with a large fragment broken from it, we left as mementoes of our visit, two *Pacific Christian Advocates*, of date July 21st, 1866, with the names of the party written upon them, and some pieces of silver.

The scene around was overpoweringly indescribable. I could select here and there a point and speak of it, but to picture the scene is a simple and utter impossibility. It would require the canvas and brush, and years of toil to give an idea to the eye. Yet a few general [illegible] may be taken. The first is the Cascade range itself. From south to north its whole line is at once under the eye, from Diamond Peak to Rainier, a distance of not less than four hundred miles. Within that distance are Mounts St. Helens, Baker, Jefferson and [illegible], making with Mt. Hood, eight [illegible] mountains. Eastward the Blue Mountains are in distinct view for at least five hundred miles [illegible] lying between us and them are the [illegible] of the *Des Chutes*, John Day's and Umatilla rivers, one hundred and fifty miles in width. On the west the piny crests of the Coast Range cut clear against the sky, with the Willamette valley sleeping in quiet beauty at their feet. The broad belt of the Columbia winds gracefully through the evergreen valley toward the ocean. Within these wide limits is every variety of mountain and valley, lake and prairie, bold, beetling precipices, and graceful rounded summits, blending and melting away into each other forming a whole of unutterable magnificence. We have seen Niagara in all possible conditions of day and night, of summer and winter, and we *did* think it grand, magnificent but to the lover of the great, the grand, the unspeakable, we would say see Mount Hood and die

After we had satisfied ourselves we began the descent. On our way down we went into the crater of the mountain It opens through an immense ice cave down which we descended until our way was stopped by a perpendicular wall of fifty or sixty feet in height. If we had had a rope I should certainly have ventured to the bottom, but as it was, was obliged to content myself with looking into the steaming, smoking mouth of the crater In two hours from the summit we reached our camp, judging the distance to be six miles At night we began to pay the price of our day's work. The glare of the sun on the snow had burned our faces and blinded our eyes so that sleep was out of the question. A very long night was succeeded by a morning at last, but two of our party were totally unable to open their eyes All that day we lay in camp, they blind as rocks, and suffering the most excruciating pain. At 4 P M we took horse, the blind men tying up their red and swollen eyes with wet handkerchiefs, and Mr Moreland and myself leading their horses, traveled until nine o'clock. The next morning one was able to see enough to guide his own horse, but the other could not open his eyes until we reached Revenue's at eleven o'clock A. M But the prize was worth the pain, though the pain might all have been avoided by simply wearing a veil.

We brought away some rocks from the pinnacle, and other mementoes of our journey which we very highly prize H. K. HINES
